World class facility for Dental Implants

Kamal has commissioned **50,000 Sq. ft state of art** manufacturing facility at Delhi NCR, India.

The facility is compliant as per International Standard ISO 13485.

The facility has been equipped with best in class clean rooms, sliding head swiss Tornos machines, surface preparation and final cleaning equipment needed for meeting most stringent requirement for a world class product.

Our products are compliant to **MDD 93/42/EEC as amended up to 2007/47/EC .**

Also EUMDR is under process and will be in compliance by end of 2026.

Our on-premises DIGITAL LAB provides perfect fit **Dental Prosthetics.**

An end to end solution under a single roof.

The unique implant design for high primary stability and better esthetic outcome

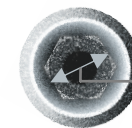

The expanding taper, two start thread design with varying profile offers high primary stability, gradual bone condensing and adjustable implant orientation for optimal prosthetic connection angulation.

Twin cutting flutes ease insertion and bone transfer.

Twin Apical cutting blades facilitate insertion into minimally prepared sites.

The coronal region is backtapered, a design that allows for maximum bone volume around the implant platform.

The expanding tapered body is designed to attain high stability even with compromised bone situations.

M1.6 Internal Connection with Hex of 2.25 A/F mm with morse taper of 12°

Our premises Digital Lab

We our extended arm in Digital dentistry is our on premises Digital Lab. Precision, Innovation and Reliability are the hallmark of this facility. VR Denta delivers high-quality, FDA-compliant dental restorations using 3Shape & Exocad technology. With a remake rate under 6% and 2 Lab Day turnaround, we ensure speed, accuracy, and aesthetics for labs worldwide.

We Have

Expert Design Team : 60+ CAD designers handling 750+ cases daily.
Advanced Manufacturing : FDA-approved materials and modern milling units.
Continuous Training : In-house learning ensures precision and consistency.
Compliant & Secure : 100% HIPAA and FDA compliant workflows.

We Offer

Design (TAT 12hr) : Crowns, Bridges, Veneers, Digital Dentures, Surgical Guides, Night Guards, and much more.
Manufacturing : Full Contour & Multilayered Zirconia, Emax, 3D Models and all removal prosthetics.
Fast Turnaround : 2 Lab Days for most cases.
Global Trust : Partnered with labs in the USA, Canada & Europe.
Seamless Workflow : Real-time tracking via VR-Connect.
Consistent Quality : SOP-driven, AACD-trained team ensuring excellence.

Our Technology – VR-Connect

Cloud-based, HIPAA-compliant platform for file uploads, case tracking, communication, and payments— accessible anytime, anywhere.

The Vision

To lead globally in digital dental design & manufacturing through precision, innovation, and reliability.

A Better Tomorrow For All

In pursuit of preservation of that priceless self, we have endeavoured through our commitment to Environment Protection and Affordable Healthcare to achieve : “A Better Tomorrow For All”.

Kamal’s dedicated 400+ workforce, through Amalgamation of Innovation and Technology, has enabled introduction of world-class quality Product and Devices which have found ready acceptance and sustained support across a broad spectrum of users worldwide. Our Health care vertical is committed to your success with best in class Medical Devices and Services.
